

THE SEVEN DEADLY SINS AND PROFESSIONS OF BABYLON THE GREAT

TO CONTROL THE MIND AND SOUL:

1. **The religious system:** (the clergy: theologians, preachers and rabbis)

--teaching every kind of false doctrine and pagan tradition.

2. **The educational system:** (the professors and teachers)

Eyes wide shut
programming through the entertainment system - Hollywoods
--teaching humanism, evolution, every false science and values clarification.

3. **The political system:** (the politicians and paid off government employees)

--teaching and promoting the entire agenda of the New One World Order with its completely illegal and unethical taxation system of the IRS which is against the constitutional rights of United States citizens.

TO CONTROL THE MASSES:

4. **The legal system:** (The lawyers, and their aids that promote Admiralty law which protects the state and the interests of the New World Order)

-failing to uphold the Ten Commandments, biblical law or common law which protects the rights and property of the people rather than the state.

TO CONTROL THE MONEY:

5. **The banking system:** (the bankers and paid off banking employees)

--collecting the highest interest rates, manipulating the world economy and financing the agenda of the New World Order and planned world wars.

TO CONTROL THE BODY:

6. **The medical system:** (The allopathic Doctors, Dentists, nurses, and all other state licensed medical professions)

--promoting an entirely false system of healing based on the treatment of symptoms by unnatural drugs instead of natural healing which is prevention oriented and addresses the root problems through natural remedies and modalities, when ever possible.

7. **The world wide drug system for both legal and illegal drugs:** (The paid off physicians, chemists, pharmacists, and medical personnel and every drug dealer who in any way benefit from)

-- promoting both the legal drugs, the illegal drug cartels and everyone who cooperates with them in drug addiction and slow death instead of promoting natural healing.
